*98th Annual
West Side Nut Club Fall Festival
October 7 - 12, 2019*

It's time to get started for another Fall Festival.

If you are using propane this year, Lin-Gas, Inc. is ready so you have it when you need it. We will be certain that you have a supply of propane and service that is a phone call away.

During the early morning hours (6 - 9 AM), it is best to call us on the cell phone 812-457-4817 which our onsite service people will carry. After 9 AM and if you need to contact us at any other time or for any other reason, use our office number (812-424-9021). The emergency number is 800-850-4380 and for EMERGENCIES or call 911.

As you know, we are generally at the Festival during the early morning hours (6 - 9 AM) to make certain you get the fastest service possible (and we avoid the crowds). After 9 AM the WSNC closes the street to vehicles. So either stop us when we pass by or contact us at the phone number above so you will never have an empty tank. You must notify us by midnight of the day before in order to insure a delivery to you for the next day and to avoid additional charges.

For the fastest service, please visit our web page www.lingas.com to place your order for propane and to download propane safety information (this is really important) and any other information regarding propane service at the Festival. Also look for the West Side Nut Club tab on the Lin-Gas web page.

Enclosed is a Festival Propane Fuel Agreement. You must fill it out and return it so we'll be ready to roll when we get the call that you are ready for us to supply you with propane.

If you have any questions at all, call us at 812-424-9021

We are looking forward to another great Festival. Let's make it safe and fun for everyone.
